

HOW TO MODIFY THE SVG

with the Inkscape libre software

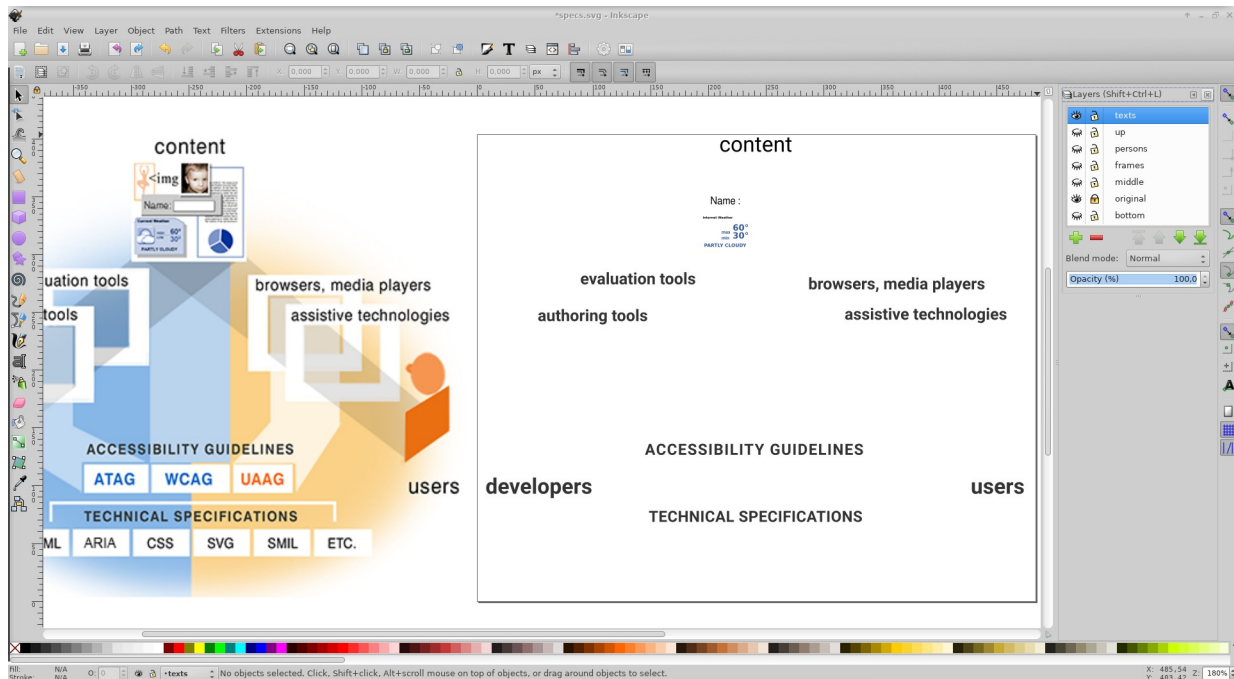

Initial view

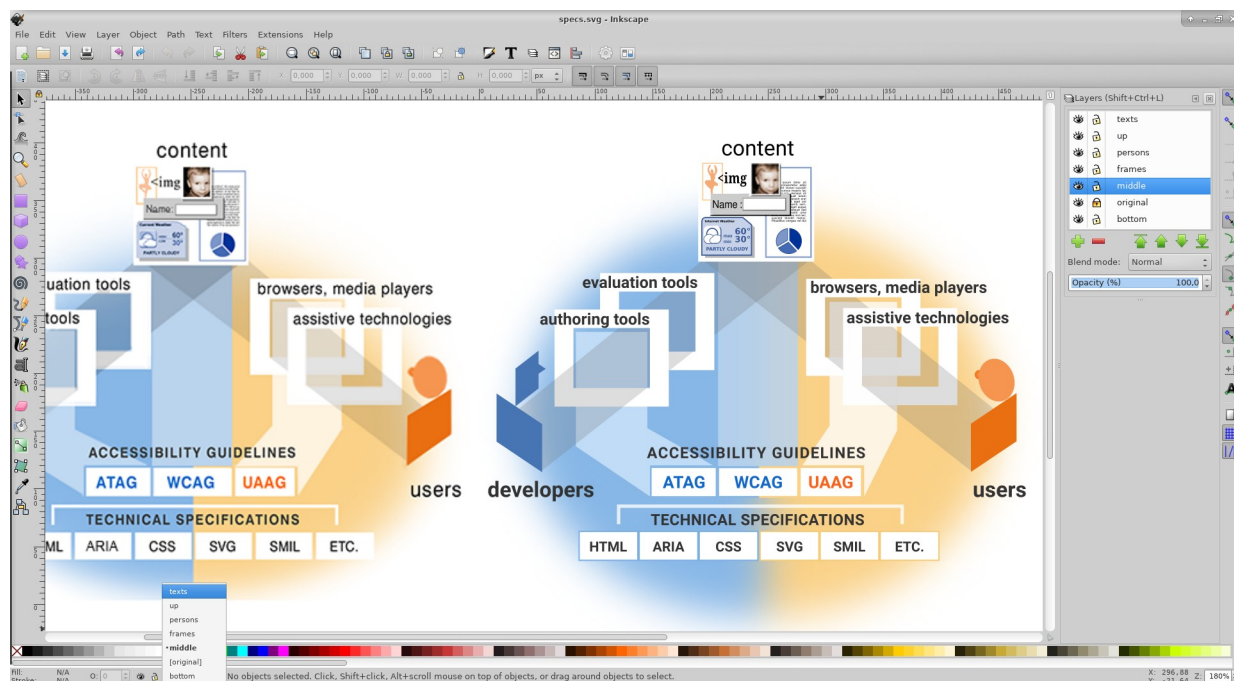

Activate layers panel

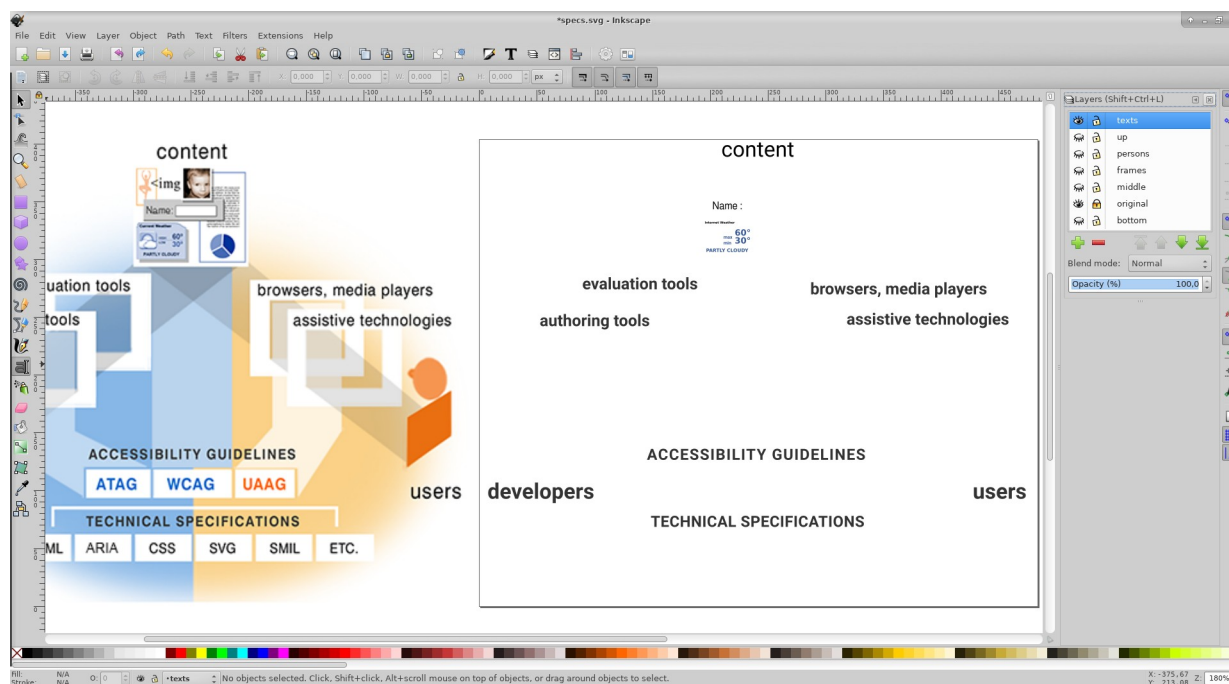

Select "Texts" layer thru the layer's panel

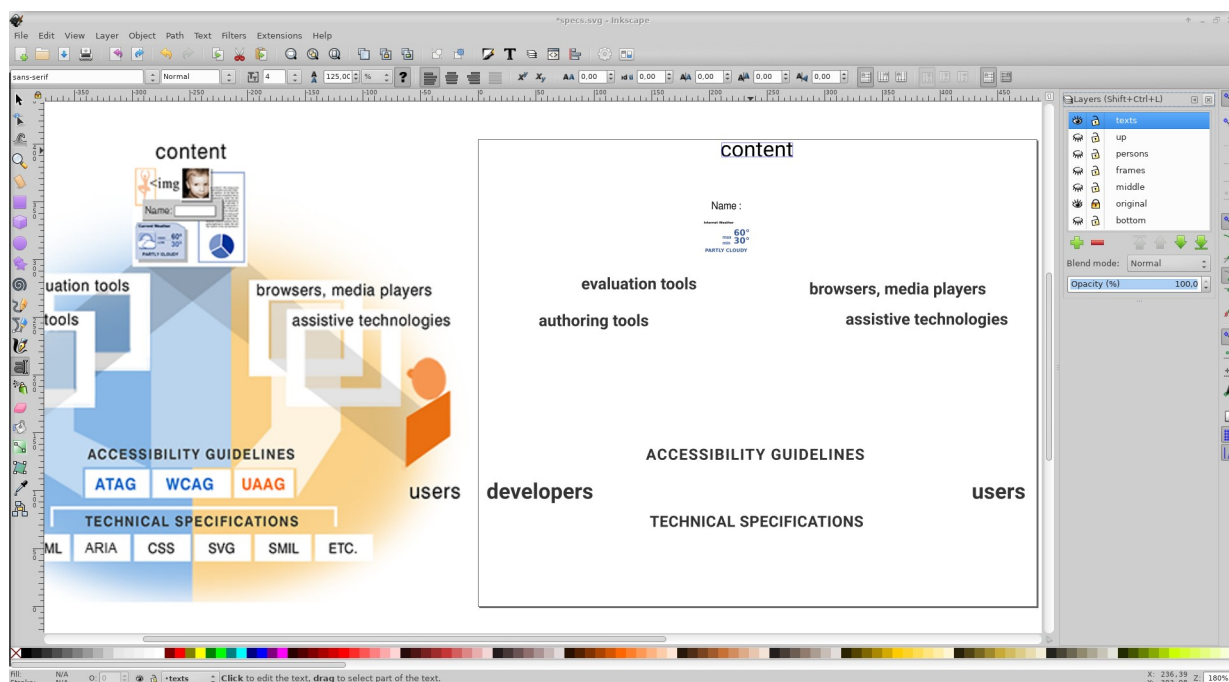

Or select "Texts" layer thru the bottom toolbar's menu

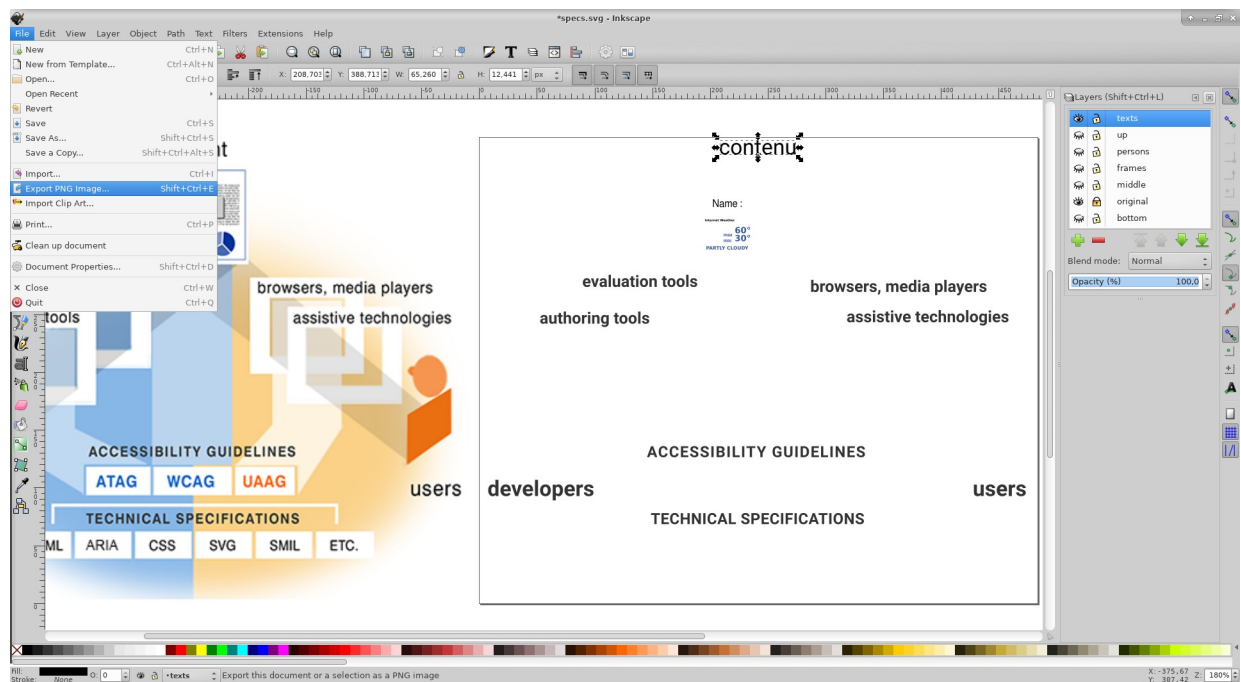

Deactivate graphic background if necessary by closing the eyes in the panel

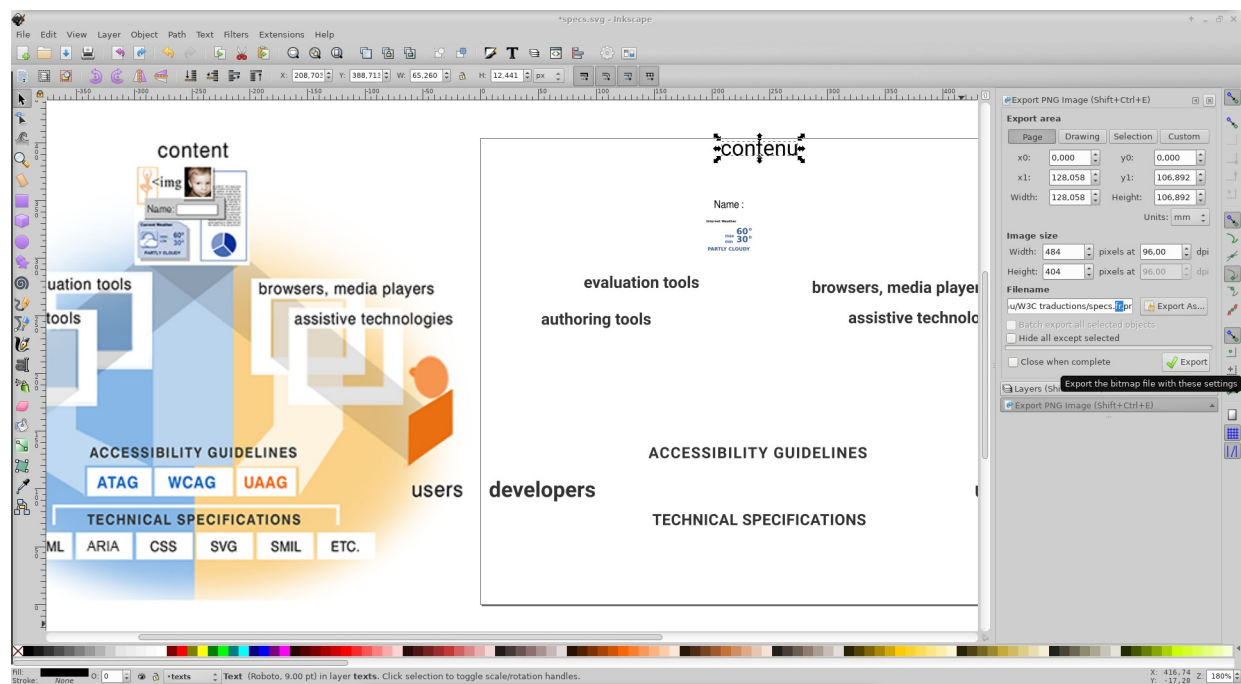

Select the text tool on the lateral toolbar

Define export options

Add your language's ISO 639-1 code to the filename: i.e. *fr* for French

Export

Done! :-)
